## ABOUT THE REPORT

Regarding sustainability, our hotel undertakes to fulfill the obligations of the Turkey Sustainable Tourism Program and to continuously improve its sustainable management system to increase its sustainability performance. Our management system is constantly reviewed due to the situation of the sector, environmental, social, technological, economic and cultural risks, changes and updates arising from legislation, and the system and policies are updated if necessary.

Our "sustainability policies" constitute our company's commitment on this issue. Starting from this point, all our orientations will be with this intention and direction. Our aim is to transform the principle of sustainability into a "way of doing business" in basic areas of our hotel and to bring it into the corporate memory. Turning our efforts into success and gaining continuity will only be possible by acting together with our employees, guests, business partners, suppliers, solution partners, and all our interlocutors in our immediate environment, to expand it and turn it into a partnership that we will strengthen day by day. It is very valuable to raise the awareness of personnel, who are considered an integral part of the sustainability approach, to give them opportunities to be involved in the process and to contribute to development opportunities. In this context, in our annual training planning and orientations; Our training topics include social rights, supporting local employment, protection of natural life, supporting wildlife, historical touristic places of the immediate environment, cultural richness, ecological diversity, energy and water saving, environmental activities-recycling system, orientation to local resources, and within the business Efforts are being made to disseminate the philosophy of sustainability. The main goal is to provide strategic support to all companies and departments to improve business results through human resources management in parallel with business strategies, and to contribute to the creation of value for all stakeholders by creating and encouraging a high performance culture. In addition to all these, it is aimed to increase awareness in every sense with both orientation training and professional level trainings determined according to annual training needs.

Sustainability studies are under the coordination of Hotel Managements, and the evaluation of our activities and performance in this field is always open to the expectations and opinions of our stakeholders.

### 3. SUSTAINABILITY MODE

The sustainability team in our facility

The sustainable management system ensures the implementation of certain policies by all employees in terms of quality, economy, management, environment, culture, human rights, health and safety, the setting of targets and the continuous improvement of business management processes by monitoring whether the targets are achieved.

If the determined targets are achieved, new targets are determined. If they are not achieved, our targets, policies and practices are reviewed. In this way, we strive to ensure continuous improvement.

#### 4. SUSTAINABLE MANAGEMENT SYSTEM AND POLICIES

The basis of our sustainable management system is based on risk analysis. Risk analysis is carried out under the headings of environment, natural disasters, society, culture, economy, quality, human rights, health and security. New headings can be added if necessary.

After the risks are analyzed, we also have a crisis management policy and system that determines what to do if the risks materialize. The annex of this document includes how to conduct risk analysis and crisis management.

SYS includes the implementation of certain policies by all employees on quality, economy, management, environment, culture, human rights, health and safety, setting targets and constantly improving business management processes by monitoring whether the targets are achieved.

If the determined targets are achieved, new targets are determined. If not achieved, our goals, policies and practices are reviewed. In this way, we strive to ensure continuous improvement.

The targets of our hotel's management system and the performance indicators that monitor compliance with the targets are included in the annex of this document.

Regarding sustainability, our hotel undertakes to fulfill the third stage obligations of the Turkey Sustainable Tourism Program and to continuously improve its sustainable management system to increase its sustainability performance.

Our management system is constantly reviewed due to the situation of the sector, environmental, social, technological, economic and cultural risks, changes and updates arising from legislation, and the system and policies are updated if necessary.

The steps mentioned above can be **summarized** as the Plan-Do-Check-Act (PDCA) approach.

Our hotel also undertakes to fully comply with legal regulations regarding accessibility and to continuously improve in this regard.

### **Buy**

Our purchasing policy includes policies for local, environmentally friendly, fair trade and efficient purchasing.

Our goods and service resources are monitored by our hotel. We hold meetings with our suppliers at regular intervals. We check their sustainability-related certificates, information and documents.

### **Local purchasing:**

When purchasing goods and services, our hotel gives priority to local suppliers, provided that they are of high quality and reasonably priced. For this reason, it regularly inspects its suppliers, updates its supplier list and informs its suppliers. The rate of goods and services received from the people of the region is measured.

When purchasing goods and services, our hotel also gives priority to fair trade suppliers, provided that the imported products are of high quality and reasonably priced.

**Environmentally conscious purchasing:**

Our hotel follows an environmentally friendly policy in purchasing and attaches importance to efficient purchasing, energy saving and water saving in order to reduce food and solid waste.

Our hotel gives priority to environmentally friendly products (environmentally labeled products) in its purchases. If there are no environmentally labeled products in the product group to be purchased, it selects the relevant products, production and all other processes from suppliers and manufacturers that do not harm the environment.

In this context, our hotel prioritizes choosing suppliers with sustainability certificates when making its purchases. Example certificates that can be sought from suppliers are documents such as ISO14001, ISO50001, ISO14064, ISO20400.

For wood, fish, paper and other foods, products with environmental certification (FSC, MSC, EU-EcoLabel, etc.) or whose source can be traced are preferred.

Threatened species and species that are prohibited for sale (fish, trees, plants, game animals, etc.) are not bought or used in our hotel.

The ratio of our purchases from environmentally certified, local producers and suppliers, and fair trade suppliers to total purchases is measured.

Our hotel has goals regarding environmentally certified, local and fair trade purchasing. In this context, we aim to increase the rate and number of local and fair trade suppliers in our purchases and we pay attention to this.

**Efficient purchasing:**

Our purchasing policy favors reusable, returnable and recycled goods.

Our hotel also gives priority to bulk purchasing and bulk product purchasing. In this way, fewer transportations are made to our hotel and less greenhouse gas emissions are produced.

It is our main priority and preference to avoid unnecessary and excessive plastic, nylon, paper, glass and wooden packaging in the products arriving at our hotel.

Disposable products and unnecessary packaging (especially plastic) are avoided when purchasing consumables and amenities. Purchasing and use of consumables and disposables are monitored and managed

Our main goal is to prevent environmental pollution and protect nature by protecting our resources in the most efficient way, reducing the amount of our waste, recycling or rendering harmless. Being aware of our environmental impacts, we strive to take the necessary precautions and actions.

In our business, we carry out and present our products and services in accordance with internal and external customer conditions, as well as international and national legal conditions and regulations; We are committed to being an environmentally friendly institution with social responsibility awareness by preventing pollution and ensuring sustainability.

While we realize this commitment,

#### **6. REDUCING ENVIRONMENTAL IMPACT**

Being aware that the natural resources we use, the immediate environment and region we interact with, and the large family we create with our employees have a great impact on our corporate success and the experiences we provide to our guests, we adopt as a management approach to review our responsibilities at every stage. In this regard, we have created an "Environmental Policy" for the protection and continuity of the environment we live in, and we aim to improve our current situation day by day by planning our business processes accordingly and analyzing the results. To achieve this goal;

Complies with applicable environmental laws, regulations, legislation and regulations and fulfills all their requirements; We carry out our activities by constantly improving ourselves and ourselves.

It is of great importance for us to protect the environment, deliver it to future generations in a clean and healthy way, and contribute to the preservation of ecological balance.

Believing in the continuity of education, we ensure that environmental awareness is adopted not only by our employees but also by our guests, and we contribute to environmental protection projects by cooperating with local governments.

One of our goals is to prevent environmental pollution and recycle a large proportion of the waste in question.

Our efforts to comply with current International and National legal legislation and requirements, to minimize the pollution that may arise as a result of our activities, and to use natural resources correctly; to share with our employees, guests, suppliers and society; It is our priority to set targets to ensure continuous improvement and to carry out the necessary research, project planning and implementation on the principle of protecting biodiversity and the efficient use of energy.

In our special efforts for our guests to minimize carbon emissions, Istanbul public transportation maps are published on our website, and our staff and guests donate trees to environmental organizations and foundations at certain periods.

In the agreements we made with our contracted tour company and suppliers, we were primarily informed about the use of electric vehicles and vehicles.

Environmental impact assessment analysis and carbon emission measurement analysis are updated regularly.

## **7. CULTURAL STUDIES**

We are aware of our duty to protect local culture and values.

In this context;  
cultural promotion

Contributing to the commercial volume of the region

Introducing natural and historical riches

Launch of codes of appropriate conduct in local areas

Our sensitivity in carrying out studies and

participating in activities on the protection of historical and cultural assets and the employment of local people is at a high level.

Publishing proposals regarding the rules and wildlife protection in areas subject to cultural heritage, providing training to the staff and informing the guests on this issue, and the proposals are published on the website.

A QR code system was created and these QR code labels were provided in all areas.

### **Communication with local people**

Through the facility management and its designated representatives;

Strengthening local employment,

Increasing local awareness,

Protecting local resources and opportunities,

Opportunity to promote products and services at the facility in order to support local people and suppliers in the region. Cooperation in the region. Supporting activities that promote the region.

In order to solve important issues and problems that will affect the region, hotel unions, municipalities, regional headmen's offices and official authorities are discussed, needs are determined and joint studies are carried out.

In addition to ensuring that the processes and businesses operating at all stages of the service provided by our hotel until it reaches the final consumer, comply with all international, national and local laws for the public good, social compliance is also observed by controlling social, physical and environmental conditions.
